**SLOW TEUTON PROGRESS DUE TO FORTIFICATIONS**

Berlin, via London, Nov. 1.—The comparatively slow progress of the Austro-German forces since capturing the passes south of Kronstadt in Transylvania is explained by the Tagblatt's correspondent at that front as due to the fact that the Rumanians occupy strongly fortified positions in the mountains, every peak of which during the past two years has been converted into a fortress with batteries built in at every available spot. Good highways also have been constructed between the different peaks, enabling the Rumanians to reinforce quickly threatened points. Owing to this situation, says the correspondent, the invading forces have found it necessary to execute wide flanking movements over different mountain ranges. Nevertheless, they are making steady though slow progress.

## Doctor Says Nuxated Iron Will Increase Strength of Delicate People 200 per cent in Ten Days

In many instances—Persons have suffered untold agony for years doctoring for nervous weakness, stomach, liver or kidney disease or some other ailment when their real trouble was lack of iron in the blood.—How to tell.

New York, N. Y.—In a recent discourse Dr. E. Sauer, a well-known specialist who has studied widely both in this country and Europe said: If you were to make an actual blood test on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied all their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation, people become generally weakened, nervous and all run down and frequently develop all sorts of conditions. One is too thin; another is burdened with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepsia or liver trouble; some can't sleep at night, others are sleepy and tired all day; some fussy and irritable; some skinny and bloodless, but all lack physical power and endurance. In such cases, it is worse than foolishness to take stimulating medicines or narcotic drugs, which only chip up your fading vital powers for the moment, maybe at the expense of your life later on. No matter what any one tells you, if you are not strong and well you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired. Next take two

five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous run down people who were ailing all the time double and even triple their strength and endurance and entirely get rid of their symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form, and this, after they had in some cases been doctoring for months without obtaining any benefit. You can talk as you please about all the wonders wrought by new remedies, but when you come down to hard facts there is nothing like good old iron to put color in your cheeks and good sound, healthy flesh on your bones. It is also a great nerve and stomach strengthener and the best blood builder in the world. The only trouble was that the old forms of inorganic iron like tincture of iron, iron acetate, etc., often ruined people's teeth upset their stomachs and were not assimilated and for these reasons they frequently did more harm than good. But with the discovery of the newer forms of organic iron all this has been overcome. Nuxated Iron for example, is pleasant to take, does not injure the teeth and is almost immediately beneficial.

**NOTE**—The manufacturers of Nuxated Iron have such unbounded confidence in its potency that they will forfeit \$100 to any charitable institution if they cannot take any man or woman under sixty who lacks iron and increase their strength 20 per cent or over in four weeks' time, provided they have no serious organic trouble. Also they will refund your money in any case in which Nuxated Iron does not at least double your strength in ten days' time. It is dispensed in this city by Hickory Drug Co., and all other druggists.

### DENIAL OF CABRERA

#### DISCUSSED AT MEET

Atlantic City, N. J., Nov. 1.—The evidence of the Mexican commissioners are placing before the international joint commission to uphold their assertions that the Carranza government is growing in strength, was at 11 to 1 with a long cablegram that they said had been signed by 20 Roman Catholic priests, resident in Mexico City, who asserted that official persecution of the church no longer is practiced.

The presentation of the cablegram, its discussion and the formal repudiation by Luis Cabrera, of the statement attributed to him at Washington, marked today's session of the conference. The last session of the commission before the national election will be held Thursday or Friday. The Mexican members have planned to hear President Wilson and Charles E. Hughes speak in New York and most of the attaches of the American commission will go to the homes to vote.

## THE SOUTHERN RAILWAY COMPANY

### An Ambition and a Record

THE needs of the South are identical with the needs of the Southern Railway: the growth and success of one means the upbuilding of the other.

The Southern Railway asks no favors—no special privilege not accorded to others.

The ambition of the Southern Railway Company is to see that unity of interest that is born of co-operation between the public and the railroads; to see perfected that fair and frank policy in the management of railroads which invites the confidence of governmental agencies; to realize that liberality of treatment which will enable it to obtain the additional capital needed for the acquisition of better and enlarged facilities incident to the demand for increased and better service; and, finally—

To take its niche in the body politic of the South alongside of other great industries, with no more, but with equal, liberties, equal rights and equal opportunities.
